

General (all Android apps)

Is Cognitial Mobile on Google+ or Google Groups?

In all honesty, I still recommend that these FAQs be your first stop for help with my apps, and I also still recommend an email (from within the app preferably) for personal help. However, if you have a question or comment that you feel would be well-suited to a public forum such as Google+ or Google Groups, by all means drop me a line on there.

[Visit Cognitial Mobile on Google Groups](#) (feedback & possible beta testing opportunities)
